PROFESSIONAL SUMMARY

Motivated Diploma graduate in Procurement and Supply Chain Management with experience in IT support, digital management, graphic design, data annotation, and software engineering. Skilled in problem-solving, managing digital tools, and supporting efficient business operations. Currently advancing expertise in Data Analytics and AI, building on the AI Safari Program, with a strong interest in leveraging data and innovative technology to solve real-world challenges. A reliable and adaptable team player committed to continuous learning and contributing to organizational success.

WORK EXPERIENCE

Data Analytics & AI - Current Training
September 2026 - Present

- Learning data analytics fundamentals, including data cleaning, analysis, and visualization to support decision-making.
- Studying core AI concepts and applying them alongside data analytics to solve practical problems.
- Building on prior experience in Python, data annotation, and the AI Safari Program.

Software Engineering Trainee - Power Learn Project (PLP)
July 2026 - Present

- Gaining hands-on experience in web development, Python programming, database management, and software engineering essentials.
- Applying problem-solving and logical thinking to develop and improve simple applications.
- Collaborating on projects and continuously building practical software development skills.

AI Safari and Problem Solving Trainee - Power Learn Project (PLP)
May 2026 - June 2026

- Gained foundational knowledge in AI, digital technologies, and problem-solving through the AI Safari Program.
- Applied critical thinking to real-world and project-based tasks.
- Collaborated with peers to develop practical digital solutions.
- Built basic skills in software engineering and structured problem-solving.

Data Annotator - Atlas Capture (Freelance)
April 2026 - Present

- Label and structure datasets for AI/ML training with high accuracy using Atlas Capture.
- Follow detailed annotation guidelines and quality-control workflows to ensure data consistency and reliability.
- Review and validate annotated data to meet project standards and improve model performance.

Digital Management & Graphic Design Trainee - Learnio (Freelance)
November 2025 - June 2026

- Manage digital content, social media presence and online campaigns.
- Design graphics, branding assets and marketing visuals for clients.

IT Attachment - Human Practice Foundation
October 2025 - Present

- Provide IT support, troubleshoot hardware/software and maintain systems.
- Assist staff with digital tools and day-to-day technical operations.

Procurement & Supply Chain Attaché - ENSDA
March 2022 - June 2022

- Supported procurement processes, supplier records and stores management.
- Assisted in preparation of LPOs, requisitions and inventory tracking.
